- MYSQL
- MONGODB

PROJECTS

PORTFOLIO WEBSITE:

As a place to store and showcase my projects, I built a fully responsive website featuring media queries, dynamic *JavaScript* animations, and modern *CSS* technologies such as *Sass*.

GAME OF THRONES:

Using Bootstrap as the framework, I built a website that introduces new viewers to the Game of Thrones world.

BATTLESHIP:

Using *JavaScript* to code the logic and *Sass* to style the game, I created a Battleship game that implemented callback functions.

MAD LIB GENERATOR:

I built a Mad Lib Generator using the *React* framework that implemented two-way binding with input and state.

EXPERIENCE

FREELANCE WEB DEVELOPER

SELF EMPLOYED | JUL 2017 - PRESENT

- Build responsive and attractive websites for my clients using modern programming tools (e.g. *ES6*, *React*, *Flexbox*, etc).
